In Collaboration with:

The 12<sup>th</sup> Congress of the  
**EUROPEAN ACADEMY  
OF PAEDIATRIC SOCIETIES**

**EAPS**

24-27 September 2026, Athens & Online

## Advancing Evidence-Based Paediatrics

The EAPS Congress serves as a high-level forum for the dissemination of original research and the discussion of clinical advancements in paediatric and neonatal medicine. Join international clinicians and researchers to analyse the latest data-driven solutions for improving child health outcomes.

### Multispecialty Insights

Deep-dive sessions into neonatology, immunology, adolescent mental health and many more focusing on current clinical trials and peer-reviewed data.

### Translational Learning

Interactive workshops designed to bridge the gap between bench research and bedside application.

### Scientific Exchange

Facilitated networking sessions to establish international research collaborations and multi-center studies.

### Innovative Solutions

EAPS 2026 will introduce **new interactive session formats** designed to enhance discussion, collaboration, and practical learning. Participants will also experience **AI-powered advancements** that support a more dynamic congress experience, helping you discover relevant research and connect with peers across disciplines.

### Contribute to the Global Scientific Discourse

Present your findings to an international audience and share research that advances paediatric and neonatal care. EAPS offers a respected platform to exchange ideas, gain visibility among global experts, and contribute to improving outcomes for children worldwide. The highest-scoring abstracts will be recognised with **awards** may be **published in an international journal**.

**Submit your abstract by 25 March 2026 and secure the early registration rate by 24 June 2026.**
